

Light: Lightning should not change during recording

Camera: Has to be horizontal (landscape mode). Hint: To fit in the picture while standing go a bit back. And it's okay if your legs are cut of a bit.

Camera has to be exactly same position the whole time. Camera may not shake. Keep eye contact with the camera

Visible Area: Everything should be visible in this one camera view (when you're standing, laying on bed etc.) without changing camera position

Hair: Please wear your hair tight (e.g. pony tail). No open hair please

Clothes: Should be in different color than background (no white on white)

Positions: Preferably, sit on a fixed chair. But you will also need to stand and lie on a bed with the exact same camera position.

Objects: No movable objects like pillows in the background. Put all movable Objects out of the visible area

Sound: No background music please
